

## Emailing Saved Images to Owen

The game will automatically save 1-2 screen grabs each time you play the game.

Images are saved in a folder named *"BeforeTheVoid\_Images"* located in the *PLAY* folder.

If the app is moved to a different folder than *PLAY*, it will create this folder there during gameplay.

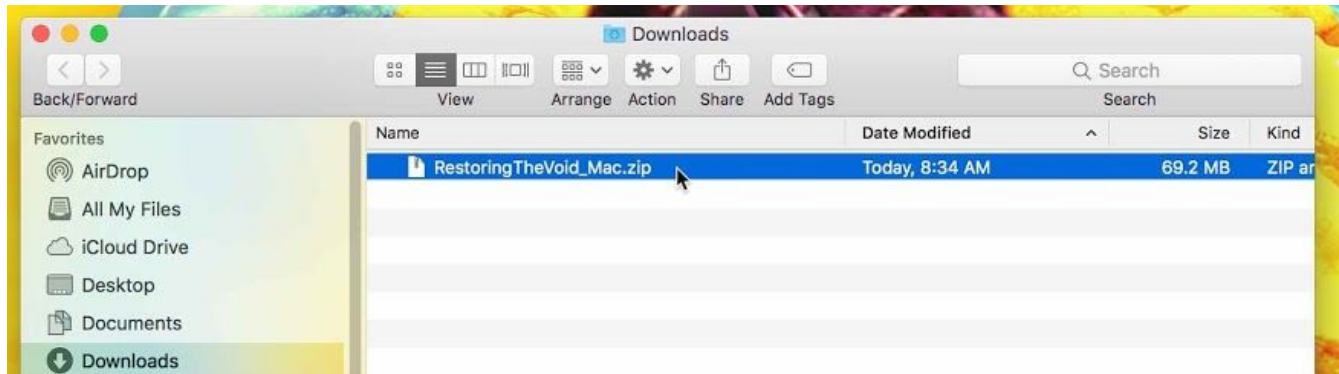

Please email gameplay images to Owen Lowery at [oblowery@gmail.com](mailto:oblowery@gmail.com)

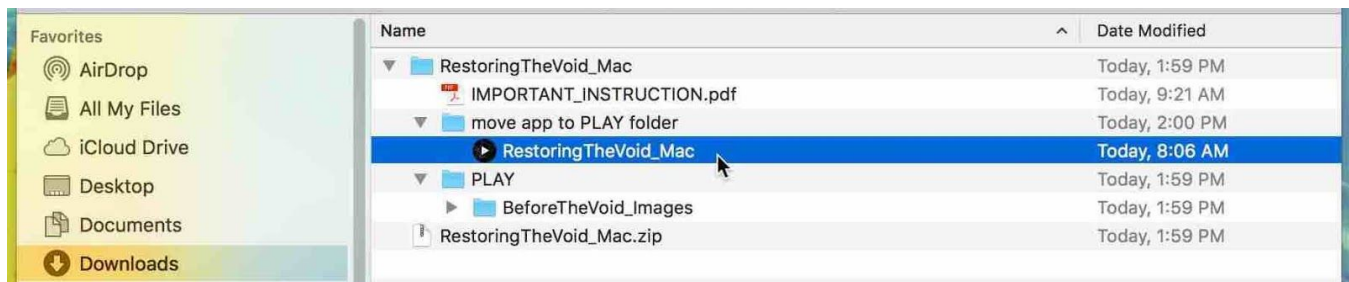

## Opening the App on a Mac

Apple likes to be extra safe when opening apps created by non-Apple developers. So there are a few extra steps to open and play the game. Not too much, but a few. Here is step-by-step instruction.

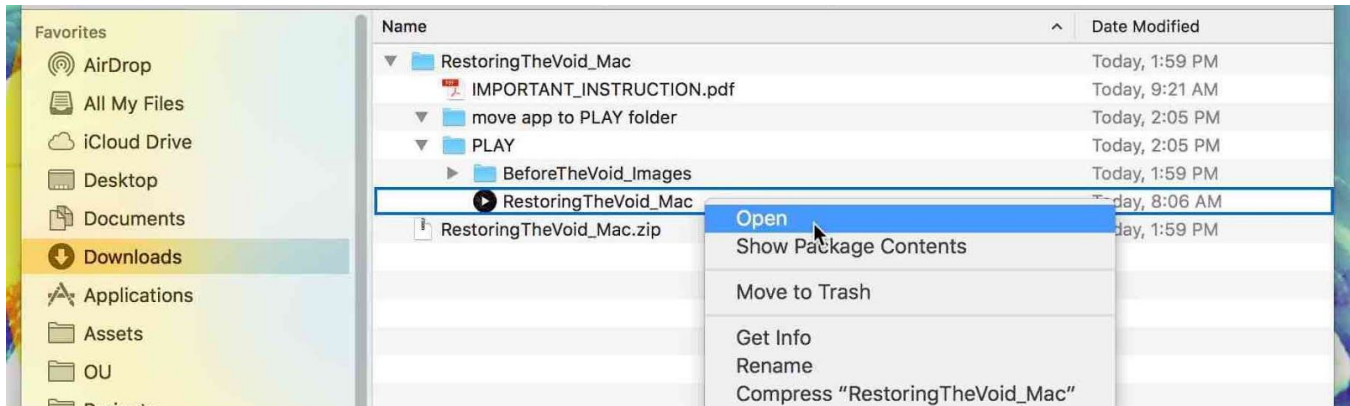

1) **Double click the zip file** you downloaded to uncompress *"RestoringTheVoid\_Mac"* game folder

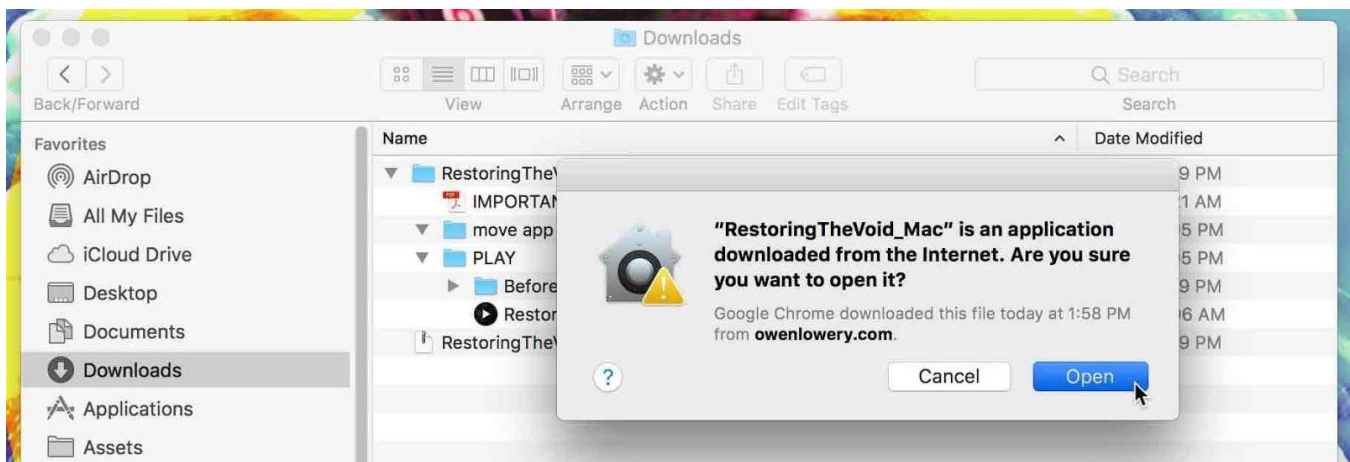

2) **Open folder.** Locate *RestoringTheVoid\_Mac* app icon and **drag app into the "PLAY" folder**

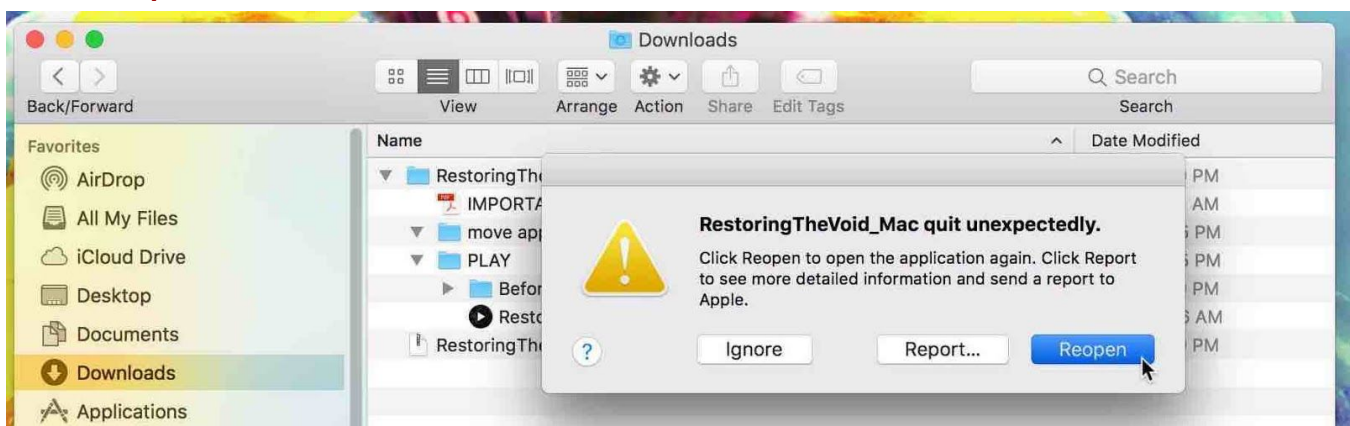

- 3) **Right Click or press Control and click** on app icon for *RestoringTheVoid\_Mac* and **Click “Open”**  
*Note - Double clicking app may not give you the option to open automatically - right/control click is best option*

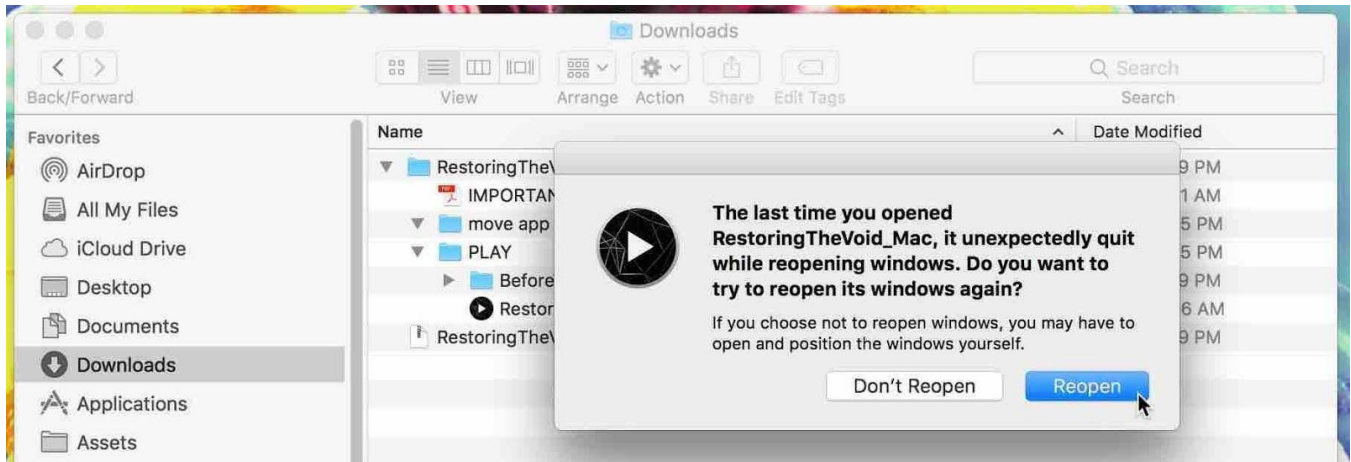

- 4) Mac will warn that the app is downloaded from the internet or from unidentified developer (me).  
**Click “Open”**

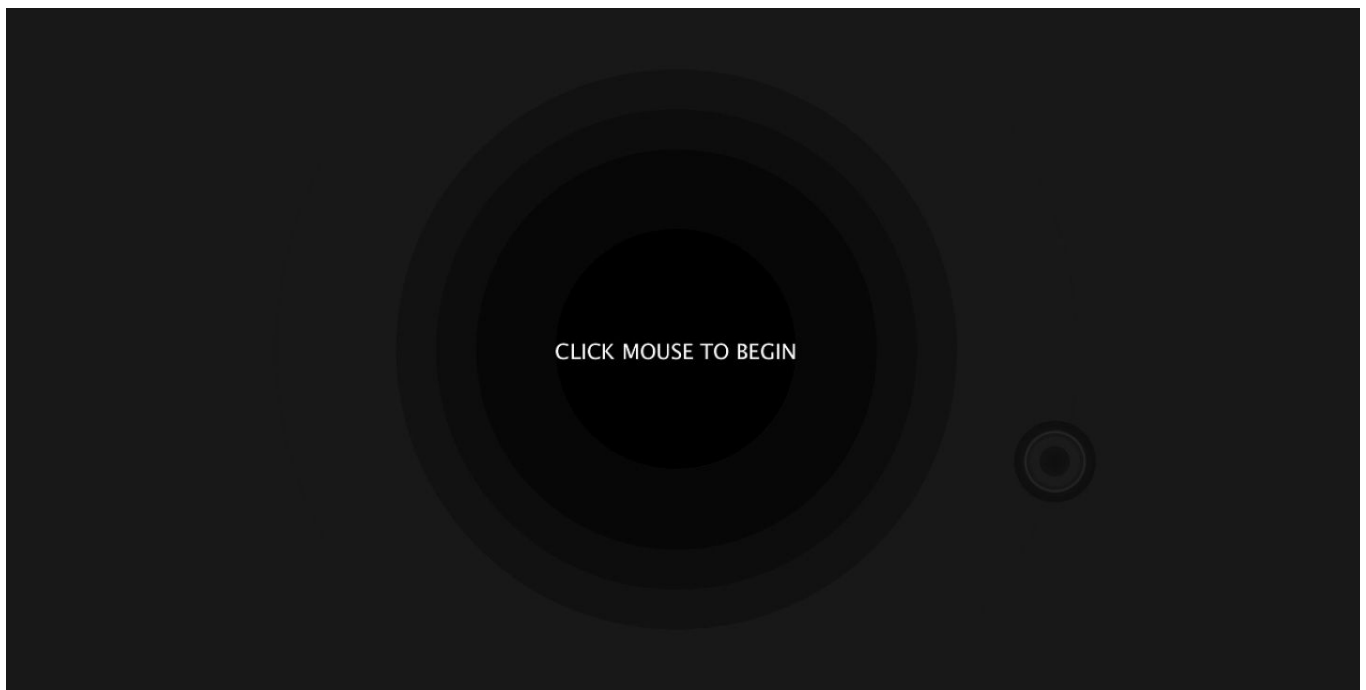

- 5) Program will probably crash after this because technology is complicated.  
**Click “Reopen”**

6) Warning will pop up saying the app crashed the last time you opened it. **Click “Reopen”**

7) Game will open! Play the game yo!

Once you go through this one time you won't have to do it again for the file you downloaded. Mac will recognize it as safe.

Game takes 3-6 minutes to play through. It will reset itself to the above start screen after it finishes. Once you've played through (as many times as you'd like) please locate the images\* automatically saved in the "BeforeTheVoid\_Images" folder - located next to the app in the "PLAY" folder. Email images to me at: [oblowery@gmail.com](mailto:oblowery@gmail.com)

Thanks. Have fun.

**\* The Fine Print**

*By playing this game you are granted full ownership over any and all images automatically saved within "BeforeTheVoid\_Images" folder produced through your personal game play. Ownership of imagery is shared with game developer Owen Lowery. Please email imagery to Owen Lowery along with your contact information and the name by which you would like to be credited.*

*You may use images produced by your game play in any way you see fit... but please don't use for anything sexist or racist. That'd make Owen sad.*
