## Emailing Saved Images to Owen

The game will automatically save 1-2 screen grabs each time you play the game.

Images are saved in a folder named *"BeforeTheVoid_Images"* located in the *main* folder.

Please email gameplay images to Owen Lowery at   oblowery@gmail.com

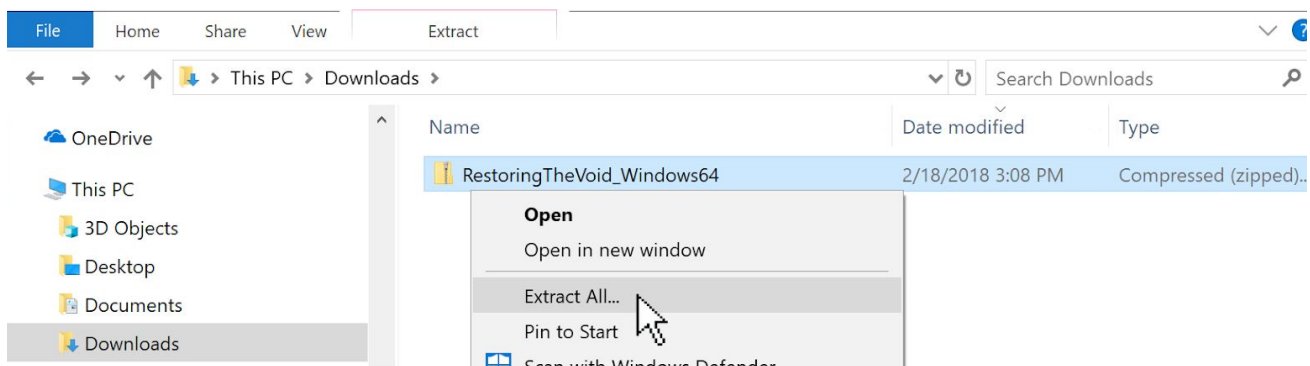

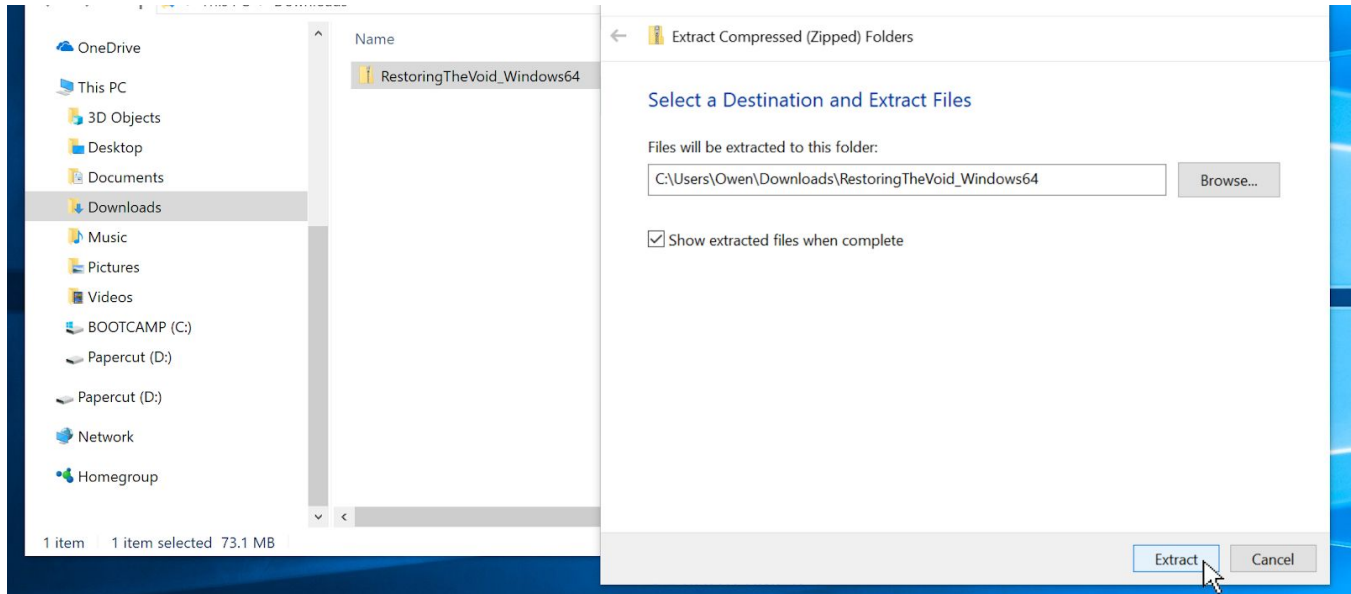

Opening the App on a Windows Machine

There are two versions of game for Windows. 64 bit for most machines and 32 bit for older machines. Try 64bit first. It should work, but if it doesn't, then try the 32bit. Instructions here are the same for both.

Windows is safe about opening apps from unidentified developers, so there are a few extra steps to open this game. Not too many, but a few. Here is step-by-step instruction.
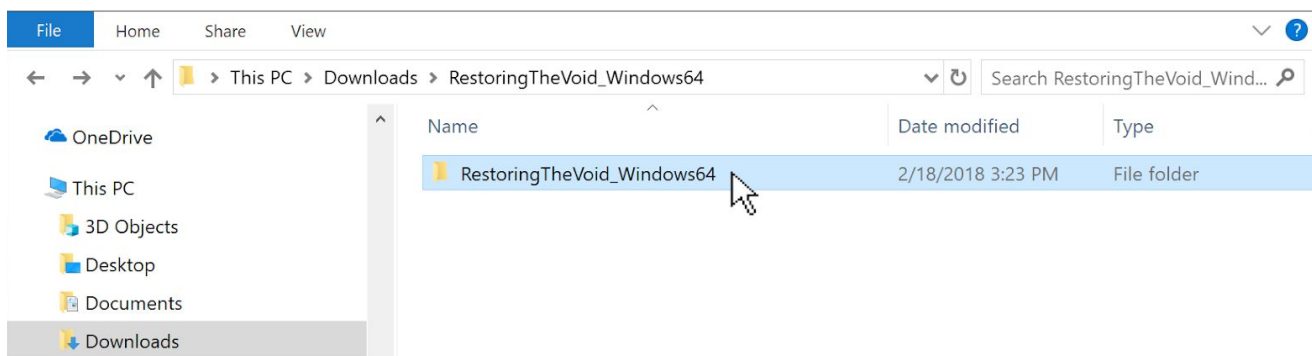

1) **Right Click** the zip file you downloaded and **select** *"Extract All..."*
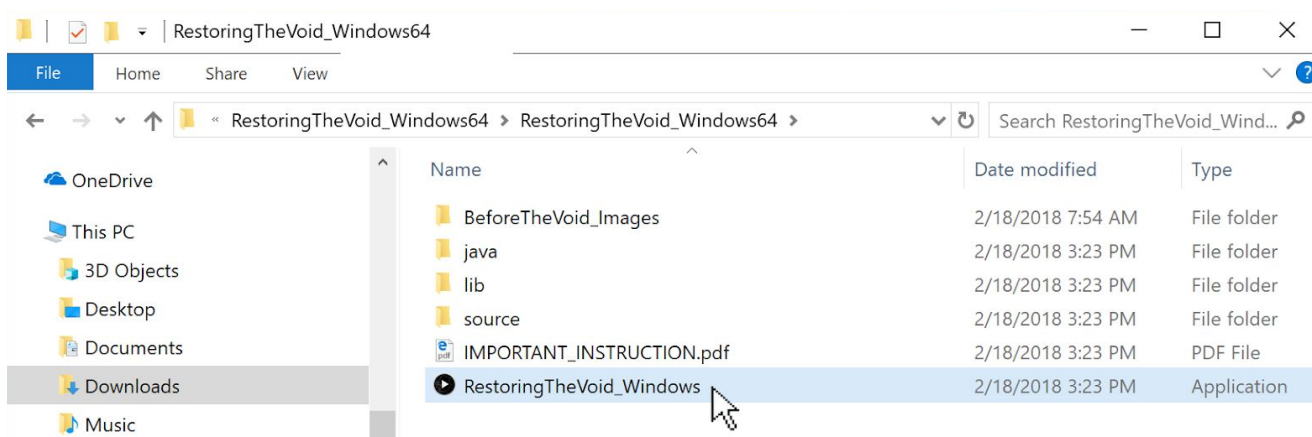

2) Choose where to uncompress zip file to *(downloads folder is fine)* **and Click "Extract"**

3) Double Click extracted *"RestoringTheVoid_Windows..."* folder to open it.

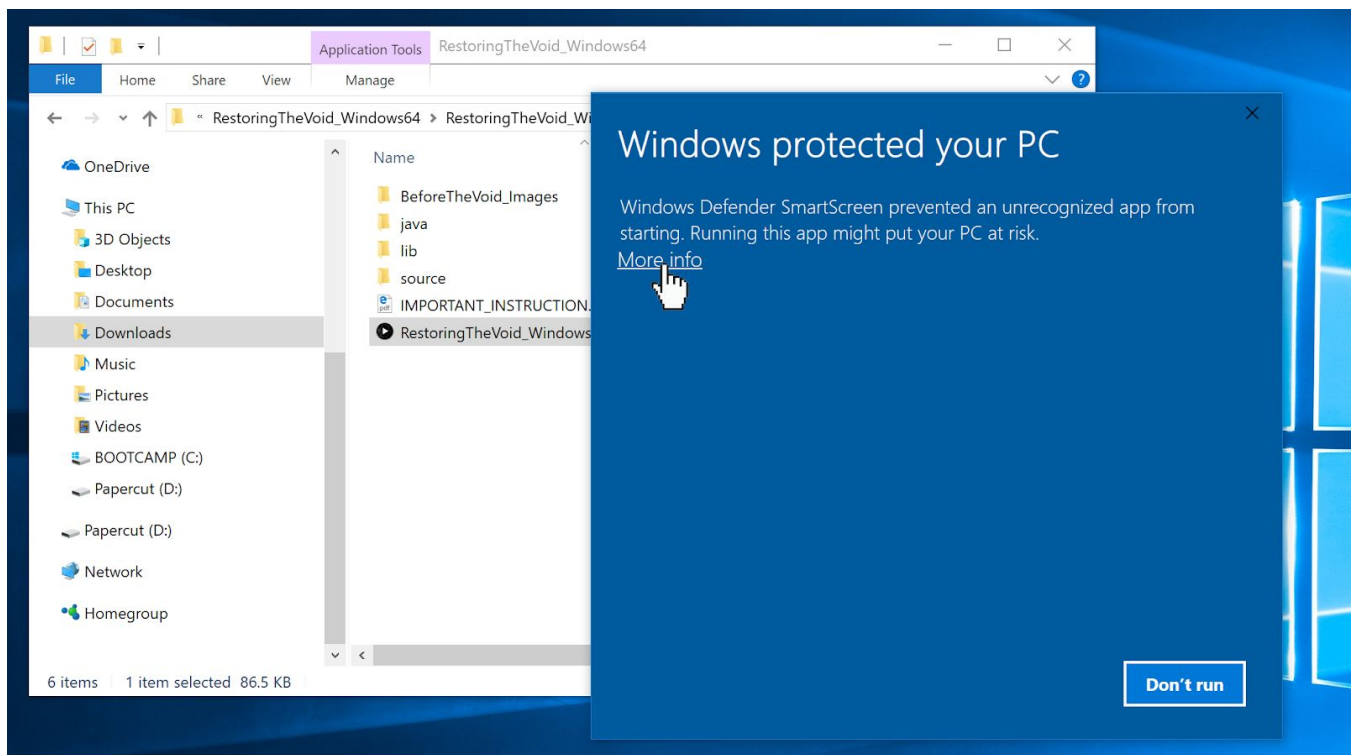

**4) Double Click** *"RestoringTheVoid_Windows"* app icon.

5) A warning will pop up saying this app is from an unrecognized developer (me).
**Click "More info"**

6) A button labeled "Run anyway" will pop up to allow you to open the app.
Click "Run anyway"

7) Game will open! Play the game yo!

Once you go through this one time you won't have to do it again for the file you downloaded. Windows will recognize it as safe.

Game takes 3-6 minutes to play through. It will reset itself to the above start screen after it finishes. Once you've played through (as many times as you'd like) please locate the images* automatically saved in the *"BeforeTheVoid_Images"* folder.

Thanks. Have fun.

*** The Fine Print**

By playing this game you are granted duel ownership over any and all images automatically saved within "BeforeTheVoid_Images" folder produced through your personal game play. Ownership of imagery is shared with game developer Owen Lowery. Please email imagery to Owen Lowery along with your contact information and the name by which you would like to be credited.

You may use images produced by your game play in any way you see fit... but please don't use for anything sexist or racist. That'd make Owen sad.
